Professional Summary

A Technical Communications & Marketing Strategist who drives revenue and investment by translating complex technical concepts into clear, compelling narratives. Proven success in authoring high-stakes documentation for major industry leaders for internal and external use, developing multi-million euro project proposals, and leading international market expansion. An expert liaison who ensures that engineering, sales, and leadership teams are perfectly aligned.

Key Project Highlight: Tallinn Edutainment Attraction & Linnahall Redevelopment - Led the conceptual design for a €150M edutainment attraction, incorporating a large oceanarium and a hotel on wasteland adjacent to the Port of Tallinn, integrating the redevelopment of the historic Linnahall. - Authored the complete project framework, from initial architectural concepts to a detailed investment plan, securing high-level interest with the official support of the Polish government. - Pioneered the project and secured foundational buy-in from the Estonian Government, the Port of Tallinn, and international investors, bringing the initiative to a successful hand-off point for formal negotiations.

Work Experience

Marketing Specialist | Kiwee Software, Wrocław, Poland

April – July 2025 - Drove a 50% increase in LinkedIn followers within six weeks through targeted content creation and engagement strategies. - Authored in-depth technical blog posts on complex software subjects to enhance the company's content marketing efforts. - Proactively implemented and managed key analytics tools, including HotJar and Ahrefs, to generate actionable market and user behavior insights. - Identified and presented new market growth opportunities and potential client leads during strategic planning meetings.

Technical Writer II | Antmicro, Wrocław, Poland

November 2023 – March 2025 - Authored a diverse range of highly technical content, from public-facing blog posts to in-depth documentation for prominent open-source software (Renode), open hardware baseboards, and confidential projects for internal and external use within the RISC-V ecosystem. - Collaborated effectively with cross-functional engineering teams (Software, Hardware, AI) to translate intricate technical concepts into clear and engaging content. - Demonstrated an ability for rapid learning by quickly mastering difficult subjects under tight deadlines, minimizing developer time and ensuring on-time delivery. - Forged a strong partnership with the sales department to align content strategy with business objectives, transforming technical blogs into effective sales enablement tools.

English Teacher | Calineczka i Przyjaciele, Kamieniec Wrocławski, Poland

September 2020 – August 2023 (Undertaken part-time to maintain teaching qualifications before transitioning to full-time) - Developed and customized educational content and learning frameworks for multiple groups. - Executed community marketing and public relations initiatives, representing the brand at public events to drive engagement and enrollment. - Managed international partnership projects through the eTwinning platform, fostering cross-cultural collaboration.

Key Account Manager & Technical Writer | PFI Global, Wrocław, Poland

March 2016 – September 2022 - Translated high-level business and government objectives into tangible project proposals for edutainment attractions valued between €10M and €200M. - Spearheaded the launch of a tourism ticketing startup, acquiring nearly 100 international partners within three months of launch, and leading expansion into Germany and the Czech Republic by managing all English-language content and forging partnerships with regional tourism boards and key attractions. - Liaised and negotiated with high-level stakeholders, including international, provincial, and local government bodies throughout Europe. - Authored, translated, and localized a diverse range of technical and marketing materials from Polish to English to support business development efforts.

Head of English & E-Learning Coordinator | John Dewey School, Oborniki, Poland

September 2011 – March 2016 - Played a key leadership role in a startup bilingual school, shaping the strategy and growth of the English department from the ground up. - Spearheaded the design and implementation of a school-wide Moodle e-learning platform, utilized by over 90% of students on a regular basis to improve engagement and access to resources. - Led and managed a diverse team of foreign language teachers (English, Spanish, and German), overseeing the full recruitment, onboarding, and professional development lifecycle. - Secured EU funding (eTwinning) to lead international teacher mobility and professional development projects, including study trips to Finland and the UK.
